

MONROE GAS MAGNUM TDT 4X4

RAISED APPLICATION GUIDE

MONROE
GAS-MAGNUM 4x4

DESIGNED, ENGINEERED AND MANUFACTURED IN AUSTRALIA FOR AUSTRALIAN CONDITIONS

Combining Tenneco's exclusive Twin Disc Technology and the legendary durability of Monroe's award winning local manufacturing processes, the Monroe Gas Magnum TDT 4WD shock absorbers are a cut above the rest.

Australian made for Australian conditions. Monroe's Gas Magnum TDT has been engineered to work in conjunction with raised height springs, designed to sustain knocks, while producing maximum dampening response in all weather conditions and minimal fading in harsh conditions.

11/06 - on	NS, NT, NW (RAISED height suspension) All, 4WD, S/Wagon R50: This product suits vehicles having a raised ride height of up to 50mm over standard original equipment ride height. 99: Re-use original top mounting components, or where required, use Mounting Kit 904984	36-0818 S/S R50 R99	904984	⊥ ⊗	16-0819+ R50	-	⊥ ⊗	
TRITON								
7/06 - on	ML, MN (RAISED height suspension), 4WD, All Body Variants R20: This product suits vehicles having a raised ride height of up to 20mm over standard original equipment ride height. R40: This product suits vehicles having a raised ride height of up to 40mm over standard original equipment ride height.	36-0845 R20 S/S	-	⊥ ⊗	16-0844+ R40	-	⊗ ⊗	

FEATURES

- 35mm Bore
- 16mm Piston Rod
- Multi stage, high displacement valving
- Superior chrome rod
- Multi lip seal - state of the art durability
- Nitrogen gas pressurised
- 3 Year / 60,000 Warranty
- Made in Australia specifically for Australian conditions
- Designed for Raised Height Suspension
